engineering & construction contracting conference

Why Future Leaders?

- **Bring new perspectives**
- **Expand and diversify the network of professionals**
- **Debate issues and suggest solutions**
- **Provide forum for Future Leader participation**

engineering & construction contracting conference

2006 Future Leaders

- **Seven company nominees**
- **Issue worked by team**
- **Afternoon session with all Future Leaders**
 - Review 2006 issue
 - Identify topics for 2007
- **Report outs to General Session**
- **Provide direction for next year's core team**

engineering & construction contracting conference

Issue 1: Delivery of Major Capital Projects in Tomorrow's Environment

Team will research:

- **methods to mitigate impact of resource constraints**
- **best efficiency models from other industries**
- **innovative uses of technology**

engineering & construction contracting conference

Issue 2: Accelerated Development of Project Leaders

Team will address issues related to:

- current shortage of key resources
- aging workforce
- increased complexity of projects
- retention
- recruiting

engineering & construction contracting conference

Issue 3: Project Execution in the Current Resource Constrained Environment

Team will identify:

- **issues related to people, equipment, and material constraints in a capital rich environment**
- **project targets and contract terms that promote collaboration**
- **optimal execution models**

engineering & construction contracting conference

Issue 4: Successful Global Projects and Project Teams

Team will collect and discuss best practices that:

- **capture collective knowledge of industry experts**
- **identify contract terms / project organizations that support innovation**
- **promote industry cooperation**

engineering & construction contracting conference

Issue 5: Leading Change in our Dynamic Industry

Team will:

- **investigate current business climate and market drivers**
 - Geopolitical concerns
 - Nationalization of regional markets
 - Commodity price impacts
 - Cost of supply
