## Safety Technology Solutions

Can you envision applying these applications on your projects in the next twelve months?

1. Immediate possibilities for one or more

2. Need some more evaluation but encouraged

3. Solutions still need maturing

## Engineering Solutions

Has technology advanced today to a level where every project needs to use these tools to ensure effective design and construction?

1. You'd be stupid not to use the technologies

49%

2. I'm still on the fence.

I need another year to listen to the ECC panels

29%

3. Current engineering processes make it difficult to use these technologies

# Audience Input

## Wireless RFID and Sensor Technologies

- Do you see the use of RFID and sensor technologies substantially changing how we do work in the future?

1. This is a big deal and will impact construction considerably

2. I'm on the fence and will need to come to the ECC conference a few more times

3. I don't see the use for RFID's

# Audience Input

## Construction and Construction Planning

Will these tools improve the overall construction process?

1. Considerably, as the planning processes are key to a successful project

2. I like the tools, but I'm not sure that it will affect the field effectiveness

3. the tools still have a way to go

# Audience Input

- Is there at least one new technology solution that you have seen here today to pursue on your next project?

1. Yes

2. No
