Driving Relationships Across the Industry

Leading Professional Development

Leading Professional Development

Supporting thought leadership

Optionality / Standardization Opponents or Allies?

Panelists

• Ryan Malone

- Ryan Malone is the Sustaining Capital Portfolio Manager and is responsible for recommending capital investment choices across BP's 7 global refineries, 9 production regions, and across the building alternative energy portfolio. Ryan joined BP in 2002 and has held a number of posts in operations, projects, as well as centralized corporate roles.
- Ryan's career with BP began as an operations engineer in Onshore USA and then led to a number of project engineering and management roles. Ryan was Executive Assistant to the COO - Global Projects, where he helped in the creation of BP's global projects organization (GPO), and most recently, Ryan was the Head of Projects for BP's Gulf of Mexico and Canada joint business.

• Jose Pires

- José Pires serves as Excellence & Innovation executive leader and advisor for companies ranging from startups to Fortune 50, guiding executives and high-performance teams on the journey to award-winning cultural, business, and digital transformations for value creation.
- He has held Excellence & Innovation and Business Transformation leadership positions across multiple industries, including electronics (Sony), semiconductors (Cymer-ASML), food (Nestlé), energy / water / telecommunications infrastructure (Black & Veatch), and oil & gas / energy (Anadarko-Marathon Petroleum)
