PerspECCtive
53rd Annual ECC Conference
September 8-11, 2021

PERFORMING WHILE TRANSFORMING:
EXECUTING NOW, EVOLVING FOR TOMORROW

2021 ECC Industry Association Partnership Program
The annual ECC Conference attracts 800-1,000 executives representing diverse industries to learn, collaborate and network. Along with panels, round tables and interactive sessions led by industry practitioners, ECC brings world class thought leaders to share leadership concepts, geopolitical insights, economic forecasts and inspiration. ECC is about gaining a perspective, shifting your view, broadening your vision.

For 50+ years, the ECC Association has provided unique opportunities for industry pioneers and innovators to collaborate in a neutral forum free from the daily demands and politics of business. Formed by owners, contractors, suppliers and academics in the capital projects community, the ECC aims to drive excellence and the long-term success of the industry through networking, innovation, and outreach. ECC provides opportunity for professionals from all aspects and all levels of the engineering and construction industry. From the Future Leaders program, a program that recognizes and fosters budding leadership, to Sponsor workshops moving critical ideas forward, to platforms for established thought-leaders and industry pioneers, ECC is working to build avenues for greater understanding, knowledge growth and career enhancement for all who participate.

WHY LEADERS ATTEND ECC

- At ECC, we are exposed to the latest in broad, strategic thinking and global trends as well as tools, techniques and best practices from industry practitioners who know what we face every day. It’s of great value to us.
- This forum is a high level gathering of thought leaders focused on the development of relationships, open sharing of knowledge, and deep discussion of timely and significant issues facing the industry.
- ECC is a staple for leaders in the capital projects arena.
- This conference is superior to any others because it’s run by industry, not a company.
- Best networking and highest quality speakers.

PAST SESSIONS

- Technology: The Next Step Change in Construction Productivity?
- Total Installed Cost Reduction on future Mega Projects
- Minimum Scope To Meet Objectives (Really!)
- Driving Competitiveness in Small Capital and Project Portfolios
- The Role of Executive Leadership in Project Success
- Filling Our Industry’s Talent Pipeline: A Holistic Approach
- Managing Critical Project Risk: Cyber Security – Not an IT Responsibility
- Integrating Breakthrough Project Outcomes with World-Class Safety Performance
